

FREE FALL, Power and Volume

Headlong collisions gonna set the world on fire
Whipping up the beat, turning up heat again, baby!
Reel tonight I won't let you down!
I'm a calf made of gold I'm the king of rock'n'roll

I've got fire I've got soul and power, and volume
And power, and volume, and power, and volume
Turn it up, turn it up, louder, louder, louder, louder

Hyper engine energy compression overload!
I'm a loaded speedball and I'm ready to explode
Got gasoline in my veins and power, and volume
And power, and volume, and power, and volume
Turn it up, turn it up, louder, louder, louder, louder
Got gasoline in my veins, in my brain and power, and volume
And power, and volume, and power, and volume
Turn it up, turn it up, louder, louder, louder, louder
