

# Freedom Call, Graceland

In a time of loneliness  
Years gone by  
Time of sadness  
Tried to survive

We saw a land so glorious  
Far beyond the sun  
Let us ride away, and we're  
Touching the sky tonight

Dreams have fallen, voices calling  
And together we will spread our wings and fly  
Darkness falling, heroes calling  
Forever for the love - forever for the flame inside  
Hope has fallen, winds are calling

Once upon a time the world was in distress  
But now we live in peace united, till the end

Forever in a land of grace and glory  
My soul is free of pain  
And the children tell us stories  
That harmony remains

Forever in a land of grace and glory  
My heart will live again  
And the children tell us stories  
That happiness remains

Watching the sky, the light  
Stranger's walking, creatures talking  
And return to the sun, escape from the night  
Darkness falling, shadows crawling  
Oh you pray to your god and you pray  
for eternal life  
Times are turning, planets burning

Once upon a time the world was in distress  
But now we live in peace united, till the end

Forever in a land of grace and glory  
My soul is free of pain  
And the children tell us stories  
That harmony remains

Forever in a land of grace and glory  
My heart will live again  
And the children tell us stories  
That happiness remains
