

Freedy Johnston, Across The Avenue

Though you've gone away
I play your favorite song
Feel the blue and gold
With your dark glasses on

I always think I see you
Across the avenue
Walking by where I lost you
It's all I ever do

You just walked away
We'll need tonight, OK?
Going against the light
Run down in front of me

Chorus:
I always think I see you
Across the avenue
Someday I'll come to meet you
On the other side
Across the avenue X 2

Though you've gone away
I wear your favorite shirt
Sitting in the sun
By the lottery lines

Chorus
