

# Freedy Johnston, Across The Avenue

Though you've gone away  
I play your favorite song  
Feel the blue and gold  
With your dark glasses on

I always think I see you  
Across the avenue  
Walking by where I lost you  
It's all I ever do

You just walked away  
We'll need tonight, OK?  
Going against the light  
Run down in front of me

Chorus:  
I always think I see you  
Across the avenue  
Someday I'll come to meet you  
On the other side  
Across the avenue X 2

Though you've gone away  
I wear your favorite shirt  
Sitting in the sun  
By the lottery lines

Chorus
