

Freeky Clean, Jellyroll Lovin'

Never been cheated, never been lonely
Your wind kept blowing and calling my name
City night dreaming lucky ones only
Id never thought I would have been part of your game

Dancing with the devils of your shining beauty
Always keeps me burning the midnight oil
Never found out that you was playing booty
Never ever letting things come to the boil

Chorus:

Mean old lady you got me feeling jaded
Loves coming down when youve got somebody new
Your jelly roll loving was much too overrated
Shouldve known better what I mightve been through

Summer breeze blowing, roses aint growing
Friends say nothing nobody cares
Edge of my dreaming aint what its seeming
Still got something rolling my blues away

Sittin up late down in my kitchen
Pondering on that lesson of love
Your cheap blue movie is a double feature
Aint gonna be in your scene that is rough yeah
