

# Freeky Clean, One For Me

I been walking all alone  
Time to come in from the cold  
Even if my time aint done  
You can make me feel at home

I have walked a million roads  
I have seen a thousand frauds

Chorus:  
Hey babe youre the only one for me  
You know only you can set me free  
How could I think that loneliness was freedom no no  
I was born again in you to be

Can you hear the children cry?  
Over brand new lullaby  
Time has come to pay the price  
Cause the sun is in your eyes

Even though I see the light  
By myself it aint so bright

Chorus:  
Hey babe youre the only one for me  
You know only you can set me free  
How could I think that loneliness was freedom no no  
I was born again in you to be
