

# Frehley's Comet, Back To School

Hot summer's gone and you're still ready to burn  
Back from vacation and you're eager to learn  
Anticipation mixed with desire  
No one can stop you cause your heart's on fire

Back, back to school  
I'll teach you all the things that you never knew  
Cause it's back to school for you

Now I 'm the teacher but I have no degree  
Forget the rest I'll teach you biology  
Now just relax and you'll do your best  
Concentrate and you'll pass the test

I'll be your teacher and you'll be my pet  
Put down your notebook  
Cause's there's no written test  
Graduation is what you deserve  
You'll have no problem cause I grade on a curve

Back, back to school  
I'll teach you all the things that you never knew  
Cause it's back to school for you
