

# Frehley's Comet, Remember Me

Well I'm staring down from Venus in the dead of night  
My mind is thinking back to when the world was right  
Your guns and bombs keep rolling off the assembly line  
And people keep on starving and you think that's just fine

With my head in the clouds its easy to see  
You better live together peacefully  
You know the world is still your family  
So keep it straight - remember me  
It's not too late - remember me

Well I'm floating and spinning and flying  
above the Earth's atmosphere  
And I've got a few things to say  
That you may not wanna hear

Now there's just enough time to repair it  
As long as you don't let it get you down  
But there's not a whole lot you can do for yourself  
when you're buried underground

With my head in the clouds its easy to see  
You better live together peacefully  
You know the world is still your family  
So keep it straight - remember me  
It's not too late - remember me

There's so much yelling and screaming  
and lying and cheating  
and robbing and preaching  
That we've heard it all

We need some loving and caring  
And kissing and hugging  
And helping each other  
Or we're gonna fall

And that'll be all

So remember me

With my head in the clouds its easy to see  
You better live together peacefully  
You know the world is still your family  
So keep it straight - remember me  
It's not too late - remember me
