

# Freiheit, All I Can Do

You wrap yourself around me  
And it's like I've never loved before  
It's a feeling so good that it hurts more and more

I lose my concentration  
I can't even watch a video  
Cause in every picture I see I see you

I can't sleep, my mind is turning  
I need you, my body's yearning  
I can't stop thinking of you

All I can do  
All I can do  
Is you, just you, only you  
All I can do  
All I can do  
Is you, just you, only you

I just can't fight the feeling  
It's controlling me and I know why  
Cause I love every moment with you, only you

Mmmh, the heat inside your body  
Is attraction that will never die  
And the fire is burning in me just for you

I can't sleep, my mind is turning  
I need you, my body's yearning  
I can't stop thinking of you

All I can do  
All I can do  
Is you, just you, only you  
All I can do (I have to be close to you)  
All I can do (I love everything you do)  
Is you, just you, only you

It's you, just you, only you

All I can do  
All I can do  
Is you, just you, only you  
All I can do  
All I can do  
Is you, just you, you're all I can do
