

Freiheit, All I Can Do

You wrap yourself around me
And it's like I've never loved before
It's a feeling so good that it hurts more and more

I lose my concentration
I can't even watch a video
Cause in every picture I see I see you

I can't sleep, my mind is turning
I need you, my body's yearning
I can't stop thinking of you

All I can do
All I can do
Is you, just you, only you
All I can do
All I can do
Is you, just you, only you

I just can't fight the feeling
It's controlling me and I know why
Cause I love every moment with you, only you

Mmmh, the heat inside your body
Is attraction that will never die
And the fire is burning in me just for you

I can't sleep, my mind is turning
I need you, my body's yearning
I can't stop thinking of you

All I can do
All I can do
Is you, just you, only you
All I can do (I have to be close to you)
All I can do (I love everything you do)
Is you, just you, only you

It's you, just you, only you

All I can do
All I can do
Is you, just you, only you
All I can do
All I can do
Is you, just you, you're all I can do
