

Freiheit, On The Run To Be Free

Don't ask me how I'm living
All the love I gave in vain
Again and again
Till there was you

Though life is unforgiving
Discover your days
And remember them forever
Like I do

On the run to be free
Only precious memories
Help me find my way
On the run to be free
Only precious memories
Help me find my way
Help me find my way

Without you what is living
Ooh, love is all you've got
It means such a lot
My love for you

On the run to be free
Only precious memories
Help me find my way
On the run to be free
Only precious memories
Help me find my way

(Help me find my way)

On the run to be free
Only precious memories
Help me find my way
On the run to be free
Only precious memories
Help me find my way

On the run to be free
Only precious memories
Help me find my way
On the run to be free
Only precious memories
Help me find my way
