

French Affair, If You Give Me Credit

I know what you like
I will turn you on
A hot summer night
Will come along
Don't need conversation
Don't need no explanation

If you give me credit I will turn you on
I take you to a place I know you want to go
If you want to like what I have to show
You once style in every way make me look good today
Diamonds and pearls show that love is true

Chorus:

If you give me credit, if you give me credit
If you give me credit I will be your girl
If you give me credit, if you give me credit
If you give me credit I will be your girl

Lovers come and go, It's ok with me
I know what I want and the boys want me
I like to dance, I like it sweet romance,
If you don't raise my interest I won't let you play

If you give me credit, if you give me credit
If you give me credit I will be your girl (I will be your girl)
If you give me credit I will be your girl (I will be your girl)
If you give me credit I will be your girl (I will be your girl)

(Bridge)

If you don't give me credit I just walk away
There's no chance of begging no no I won't stay
You can save your dollars, just buy me shiny collars
If you don't raise my interest I won't let you play

If you give me credit, if you give me credit
If you give me credit I will be your girl
If you give me credit, if you give me credit
If you give me credit I will be your girl

If you give me credit I will be your girl
