We talked about the bounds
We set things down
If you change your mind
It's the end
One more time
I'm not your friend
Don't smile
Don't take another inch or two
Don't try
Even if I want you to

109 then much too low 109 then you repeat yourself

Don't you remember You came to me I won't denyit I've been watching you Can't you explain Some people don't see you.
