

Frenzal Rhomb, Stand Up & Be Cunted

So, lets get down to the nitty-gritty
Alcohol, tobacco, sedatives, sleeping tablets, inhalents, glue
marijuana and shoot
You name it, they've tried it
Dont' let your guard down, its easy for the kids to tell you not to worry
But you can't help but worry can you
And you should worry.

Freedon of expression is imperative to me.
I call on everyone to run naked through the city streets.
Sedatives I know you wanna.
Mersyndol and marijuana.
Too much hydro drives you round the bend.
Says me and my fucked up friends.
You know its time to stand up.
Stand up and be cunted.
