

Frenzal Rhomb, White World

Congratulations you have won the right to anything you want
An astronaut, a TV host, and open hand a smiling face
Another medal for your race an open door
Another opportunity to find out what it means to be so lucky
Sit back forget about the rest
Just remember you're the best that this world has to offer
Oh baby baby it's a white world
I don't want anything to do with this birthright it makes me sick
To think of people feeling better
Treating everyone like shit
Sit back forget about the rest
Just remember that you're the best
That this world has to offer.
