

# Freya, Down In Flames

Down in flames  
It all falls  
Everything that I fought for  
Proceed with abandon  
What's inside is all that's left  
The reward for my sacrifice  
It's scron and a fist full of crumbs  
Gave everything that I had and more  
Despite it I am still denied  
Run Away  
Get as far from the wreck  
as I can get  
Waded through  
Broken glass  
As the garbage rains on me  
Watch as the serpents smile  
From shadows they leer at me  
On my lifes blood they thirst to feed  
Refuse to fall despite my wounds  
Now my sorrow turns to something else
