

Freya, I See Stars

I See Stars

Music: Freya / Rune Westberg

Lyrics: Freya

I still taste your saltiness
I still sense your lips
Your saliva burns my skin
You're not here but I'm shivering
I can't move, I can't speak
I've been gagged, my knees are weak
I can't stand, I can't see
My vision's blurred and the ground is shaky

The earth moves, the ground shakes
When I'm near you I see stars
Walls cave in, angels sin
When I'm near you I see stars

I'm still recovering from the blow
When it strikes me again
It feels so good, but it leaves me helpless
And my whole world's a perfect mess
I can't sleep, no - I can't work
All activity, yeah, seems absurd
I can't stand, no I can't see
Cause my vision's blurred and the ground is shaky
the ground is shaky

The earth moves, the ground shakes
When I'm near you I see stars
Walls cave in, angels sin
When I'm near you I see stars
Oh, I see stars, yeah, yeah
I see stars, oh, oh, I see stars, yeah, yeah

The earth moves, the ground shakes
When I'm near you I see stars
Walls cave in, angels sin
When I'm near you I see stars

The cars stop, the planes drop
When I'm near you I see stars
People freeze, seize to exist
When I'm near you I see stars
