

# From Autumn To Ashes, Love It Or Left It

These are the keys  
These are the keys  
To a pulse that Ive been monitoring  
She loves to dream  
She loves to dream  
But dreamers chase and never obtain  
A victory  
A victory  
A vicious hand on a violent streak  
Learn to run  
Learn to run  
I'll never be right for anyone  
The more it gets suggested  
The more I'm uninterested  
Strength for now  
Nothing later  
Love it or leave it ya  
Hated and left it  
Trying to outgrow that phase  
I'm drifting further away from  
My element  
My element  
My element  
These are the keys  
These are the keys  
To open minds and to empathy  
She loves to dream  
She loves to dream  
Its better then her reality  
A victory  
A victory  
I'm not as old as I used to be  
I will not run  
Todays the day  
The wheels are back on the motor arcade  
The more it gets suggested  
The more I'm uninterested  
Strength for now  
Nothing later  
Love it or leave it  
Hated and left it  
Trying to outgrow that phase  
All of my ammunition  
Is for the wrong weapon  
Ive got the worst intention  
And question no question  
To keep it on offensive  
General admission  
For when you feel protected  
I'll make you regret it  
Love it or leave it  
Hated and left it  
Trying to outgrow that phase  
Love it or leave it  
Hated and left it  
Trying to outgrow that phase  
Just let me  
Just let me  
Just let out of this
