

# From Autumn To Ashes, The Funny Thing About

Extraction, no one moves  
Aggravation is the current mood  
Closed accounts, prosecute  
Dressed in these outdated suits  
Transmission incorrect  
Is there anyone that's competent?  
Dismissal but I can't vacate  
Forcing my seeds to germinate  
Like history in the making  
Can we please blur the edges  
Of this past memory  
This will make for a great story that we will never repeat  
So nod your head and tap your feet  
Because that's the only review I need  
The capillaries ball into a fist  
I tuck it safely away inside my pocket  
How can I be more obvious  
Blazers are worthless when you cant produce a hit  
And I hope to be the biggest disappointment
