

# From First To Last, The Crows Are Coming For U

How does it feel  
To be ashamed  
Of who you love  
Well I know

You were made out of honey  
Heaven in the glitter is for real  
Real, real

Always knew  
What you were  
Always knew

You walk on water  
You sing a lovely tune  
You walk on water  
You sing a lovely tune  
You walk on water  
You sing a lovely tune  
You walk on water  
You sing  
Sing

Always knew  
What you were  
Always knew

The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live  
The crows are coming for use  
Let them live, let them live

Always knew  
What you were  
Always knew  
What you were

The crows are coming for us  
Always knew  
The crows are coming for us  
What you were
