

Front Line Assembly, Conscience

Get up, do what you want
Before, before it's too late
Don't, don't worry yourself
Of others I don't think
Kick down the door
To hell for more
Severe injections, a lethal dose
Kick down the door
To hell with poverty
Clench your fist and shout at them all
Its just a lost cause
Clenched, clenched fist shout
We're souls, souls in ignorance
Break, break all the windows
Shout deliverance
Break all the doors
Innocent victim
Do what you want
