

# Front Line Assembly, Iceolate

Burning from the inside  
Working on the ground  
Iceolate the problem  
Don't let life bring you down  
Seeing through the eyes of evil  
Confusion takes a hold  
Ignorance the sign of times  
The lessons to be learned

Chorus  
Fight back  
Bring down the fear  
No control  
All systems clear x2

masked killers rule the street  
Victims all the same  
Authorised by society  
Misrule rules the world  
If a certain look could kill  
pain will be a trend  
Indifference to the difference  
They'll never end

Bringing down the enemy  
You've got to break those chains  
You've got the fear untold  
Systems got to change

Chorus x2

Erratic orders stain the world  
Stricken with grief  
Inferior conscience violates  
Mutilates the mind

Chorus
