

Front Line Assembly, Provision

"By the perception of illusion we experience reality."
Champs of oppression
Devils of mine
The youth of tomorrow
??? to find
Reanimate, reanimate
Corroded minds
??? desire
We're all so blind
Terminate the feelings pressures of life
Search for something you just can't find
Living heads
I feel the knife
Swift percision.
Come alive
Whisper youth
???
Your all eternal
Buried inside
See your face
Perception lies still
Time to choose
A new kill
??? of oppression
??? of fear
A new stage of silence
I see it clear
I feel no pain!
I feel no pain!
I feel no pain
Beyond the realm
Melted bodies
Twisted in ruins
Calm deceit
The city of death
Reanimate, reanimate
Reanimate your fear
I feel no pain
Feared existence
A crippled back
I feel no pain
The pain on my back
Reanimate, reanimate
Reanimate your fear
I feel no pain
I feel no pain
