

Frou Frou, It's Good To Be In Love

I don't know where to start
Say I'm tired or throw a party
These cucumber eyes are lying the more that I smile
about it.
And all of my clothes feel like somebody's old throw aways
I don't like it.

It's good to be in love.
It really does suit you
Just like everything.
I'm happy you're in love,
'Cause every colour goes where you do.

I'm adoring you.
It's all good.
You're so beautiful.
I'm black and blue all over.
You're breaking my flow, how could you know what I'm saying
about it
When all of my clothes feel like somebody's old throw aways.
I don't like it

It's good to be in love.
It really does suit you
Just like everything.
I'm happy you're in love,
'Cause every colour goes where you do.

I feel so powerless
I've got to stop it somehow
oh come on, what can I do?

Why's it happening?
How's it happening (without me?)
Why's it happening?
How's it happening that he feels (without me?)

It's good to be in love.
It really does suit you
Just like everything.
I'm happy you're in love,
'Cause every colour goes where you do.
'Cause every colour goes where you do (goes where you do)
Happy you're in love x3 (ooooh) Happy you're in love
