

Fu Manchu, Cyclone Launch

Left in the dust to sit down
How do you I get this heap out of here
A sharp cut on a dust row
Im Looking down it's now quite clear
Overloadin
a full hand
Wire-fry a belt blown drive
Haymaker a quick turn
Holy-roller say goodbye

I knew you'd seen it my way
Ain't got anymore today

Forever gone is a skyride
Circle the world.. it's a long time
Eliminate all highway
I got me a course in mind
Burn like a mule throw
Watch a nova come alive
Sun burnin' a hole down
Hand movin' sink with time

I knew you'd seen it my way
Ain't got anymore today
