

# Fu Manchu, King Of The Road

The universal eyes tell me where to go  
White line movin' slow  
Million miles an hour headfirst and alone  
All I got is tuck and roll  
All through my head  
It's happenin' over again  
Under forty over is U.F.O.  
Hell bent stacked in rows  
The galaxy is lined with hundreds more  
Small town you bet we're sure  
All through my head  
It's happenin' over again

As the day is long They keep movin' on

Laughin' at the notion of a signal light  
Knew we'd gone too far  
No one knew what happened but it seemed alright  
We quickly jumped in the car  
All through my head It's happenin' over again

King of the Road says you move too slow!
