

# Fu Manchu, Over The Edge

Keep it centered - keep it low  
Keep it runnin' - let's go  
Watch it climb - on its own  
The more we see - the more we know  
We know

Four wheels and a lift  
What we gave - we get  
The convoy was down  
There was nothing left - no one around  
We strapped ourselves in tight  
We were the first - and we're alright  
It's movin' way too fast  
Now shut the doors - and hit the gas

Chorus: Soo over the edge  
They said X2

I lift my head I soon realized  
I remembered - back in time  
What was rollin' along  
Movin' circle - on and on  
An image so small  
We heard the word - we heard the call  
Let's keep our story straight  
It doesn't matter - it's way too late

Chorus X2

Repeat first

The more we see We know the more we know X4
