

Fu Manchu, The Falcon Has Landed

Well I dropped twenty-five
And I lost mine
Countin' down or head straight to the sky

I seen-side
There in no time
Soarin'-high
A star shoutin' nine

The falcon has landed..it's shinin' and sanded
The falcon, it's grounded..that right where..I found it.

The first of its kind
In our space and time
Waitin' out side
The second ride

I see inside
There in no time
Soarin'-high
A star shoutin' nine

The falcon has landed..it's shinin' and sanded
The falcon, it's grounded..that right where..I found it

On a hell bent journey to the center of the earth (the earth the earth the earth)
Twin can freaks, payin' what it's worth (its worth its worth its worth)
Haulin' and crawlin, changers on it's way (its way its way its way)
Mars attack risin', now it's too late (too late too late too late)

Well I dropped twenty-five
And I lost mine
Countin' down-headin' straight to the sky

I seen inside
There in no time
Soarin'-high
A star shoutin' nine
