Fu Manchu, Weird Beard

Hundreds - thousands - millions
will appear
He struggles to signal |
so says the weird beard
And he rides around
For a chance to see it all
Uncertain and unknowing
We're sure he will fall
So he quickly takes the high road to where is not know
He will return
Down a slide to his throne

Chorus: And he says - he says Weird Beard

5 mile - 6 mile - 7 mile wide As he sped toward the mountain An easy place to hide
