

Fu-Tourist, You Come Alive

Fu-tourist

The Universe Is For US

You Come Alive (Take Control)

I'm watching how you're dancing,

I'm watching every move

Physical attraction,

You come alive, baby

I'm watching how you're dancing,

I'm watching every move

The chemical reaction,

We come alive, baby

Dear, feel the magic is in the air

And the rhythm's gonna take you there

Feel the magic is in the air

I'm better don't stop

(twice)

Take control, take more,

Take the whole dancefloor

You keep, keep, you're so hardcore

Please, do it again

(twice)

I'm watching how you're dancing,

I'm watching every move

Physical attraction,

You come alive, baby

I'm watching how you're dancing,

I'm watching every move

The chemical reaction,

We come alive, baby

Dear, feel the magic is in the air

And the rhythm's gonna take you there,

Feel the magic is in the air,

I'm better don't stop

Take control, take more,

Take the whole dancefloor

You keep, keep, you're so hardcore,

Please, do it again

Take control, take all,

Take the whole dancefloor

You keep, keep, I want some more

Please, do it again

Please, do it again

Please, do it again
