

Fuel, Don't Fall Away

This is an incorrect title...see the correct words under the correct title:
Hemmorage (in my hands)

memories are just where you laid them
drag the waters till the depths give up their dead
what did u expect to find?
was it something you left behind?
dont you remember, anything i said when i said..

Dont fall away, and leave me to myself
Dont fall away, and leave love bleeding in my hands

in my hands, again,
leave love bleeding in my hands, in my hands...
leave love bleeding.....

oh hold me now i feel contagious
am i the only place that you have left to go?
she cries her life is like, some movie black and white
dead actors, faking lines, over and over and over again she cries..

Dont fall away, and leave me to myself
Dont fall away, and leave love bleeding in my hands

in my hands, again,
leave love bleeding in my hands, in my hands...
leave love bleeding.....love lies bleeding

and i watched as you turned away, you dont remember, but i do...
you never even tried

Dont fall away, and leave me to myself
Dont fall away, and leave love bleeding in my hands

in my hands, again,
leave love bleeding in my hands, in my hands again
leave love bleeding in my hands, in my hands again
ohhhh
