

# Fuel, Mary Pretends

Mary pretends she's so insane, so insane, so insane  
Mary pretends she's so insane, so insane, so insane  
She just sits back and laughs at the pain  
Laughs at the pain, laughs at the pain  
Mary pretends she's so insane, so insane, so insane  
Falling down of her mind  
Gives her everything she wanted from the world  
Close her eyes, drift inside, so alive  
She gotta know what it feels like  
She wants to know how to fly  
She wants to know what it feels like to die  
Goodbye (all x2)

Falling down of her mind  
Gives her everything she wanted from the world  
Close her eyes, drift inside, so alive  
She gotta know what it feels like  
She wants to know how to fly  
She wants to know what it feels like to die  
Goodbye  
Goodbye  
Time to die
