

# Fugazi, Floating Boy

The sun came up  
The sun came out  
The sun did us in  
The sun came out and tore us up  
It ripped the shit out of our behinds  
We drove home on towels off the heat of the seats  
With sand in our teeth alright  
Down on the ocean down on the sea  
Water and wave under me  
We're not brave but we're down for  
the count alright
