

# Fugees, Boof Baf

(Wyclef Jean)

I'm Chill-Master-Nell of a thousand emcees  
But how are you gonna tell the real I bust from these fo' knees  
Cause he sees everyone with a deal with a record company  
They go home, they write a rhyme, they think they ready to battle better  
Some write forward, some write backward  
I wait for them to get the cheeba-ganja then reverse yo  
With a verse that's worse than the last one  
some say BOO! he's the po he used to diss Jamaicans  
and Hatians cause you thought I was American  
Ay Pras, remember that song they sang, YEAH!!  
Go back to Jamaica, what's good is what's new  
But now we move off with Uncle's with a trail-crate of COOLER!!

(Pras)

I'm from the island, the island I'm from is the strong island  
Emcees must be right, when I syke from lack of freestylin'  
Mind must be sharp until my holler girl, I get all in  
Black stylin', ridin', Boof'll be trappin'  
When they come to battle champ see the shoes flappin'  
Huh, coolin' while I'm rappin'

(Chorus: Wyclef Jean)

To kill the Jesse James rough, step back, check your steps

Rich rap come from the brothers in the neighborhood  
who used to rap on a Polaroid - here comes Father Joe  
Let me clock the block as I pull fo'-five  
Boof Baf - I cut the block with gat-stops  
I used to play hookie just to see how good an emcee was  
He said I bust a battle - aight, I still took a gun  
No cheeba, cheeba just a Libra on a last ride  
I waited so long that I thought I died and came back alive  
So hear the spirits, many fear, ?Sir New Stosser?  
This the new thing under the Sun, when I come, I come  
Bam-bam, alakazam, he grabbed the mic  
up the block they ran, I came back with the bag  
cause that's my momma man  
I'm just patrollin', move off in the block  
but the spot that I clock, you get shot if your numbers' about  
So don't get caught in the fast lane, the fast lane  
A just remain yourself and be the same  
Cause many rapper-days, say nuttin' for nuttin'  
So here's sut-um to take you from the am to the pm

(Pras)  
Cause a imitator could never be greater than the creator  
whose the originator, step up infiltrator  
See you in the alligator - back stabbin' traitor  
Tape recorder, duplicator, roughly rhymin' with the head tranzlator, hah!  
AND LEAVE THE FORTY TO BE NAUGHTY IN THE FRIDGERATOR!!!

(Chorus: Wyclef Jean)
