

# Full Blown Chaos, So Cold

So cold  
Absence of those around me  
Hide behind lying eyes  
Cause you were never there

How can you explain  
Your lack of honesty  
You took an oath  
Broke a bond that we believed

To you I'll turn my back  
And face my family  
You will never earn the respect  
That my friends will receive

Your life erased from my memory  
Nothing left of you  
Cause you're dead to me

So cold  
Absence of those around me  
Hide behind lying eyes  
Cause you were never there

You took an oath  
Broke a bond that we believed

To you I'll turn my back  
And face my family  
You will never earn the respect  
That my friends will receive

Your life erased from my memory  
Never needed you  
All I need is me

NEVER

Never needed you  
All I need is me  
My friends - my family

Never needed you  
All I need is me  
Nothing left of you  
Cause you're dead to me

To you I'll turn my back  
And face my family  
You will never earn the respect  
That my friends will receive

Your life erased from my memory  
Nothing left of you  
Cause you're dead to me

So cold  
You're dead to me
