

Full Speed Ahead, Life Hurts

soon I have to find out to find myself
the world is insane, people are crazy
hatred is shouting in me
what's keeping me back?
why not take a gun and blow your head away?
who is sick, you or me?

nothing bothers me - does it?
I could'nt care less - could I?
I'm alone with my shit - my shit!
I'm alone with all of it!

it's not humanity - I'm sitting here thinking
why don't I do it?
what's keeping me back?
why not take a gun and blow your head away?
who is sick, you or me?

who is sick, you or me, look at me, take notice
who has problems, you or me?
what's keeping me back?
why not take a gun and blow your head away?

nothing bothers me - does it?
I could'nt care less - could I?
I'm alone with my shit - my shit!
I'm alone, I'm alone with all of it!

life hurts
I'm alone with my shit
I'm alone with all of it
