

Fun Factory, Let Your Body Free

Let your body free
You can feel the rhythm everywhere
Let your body free
You can feel the rhythm in the air

Break your path, follow me
With your music let your body free
Free your body, free your soul
You wanna free you're on control
Move, move, move once more
The bass is banging on the floor
Dance to the rhythm, take a chance
Move your body, come on come on dance

Dance with me let your body free, come on
Dance with me let your body free, come on

Dance with me let your body free, come on
Come on dance, come on dance
Dance with me let your body free, come on
Dance with me let your body free, come on
Dance with me let your body free, come on
Dance, dance, dance, dance

You can feel the rhythm
You can feel the rhythm
You can feel the rhythm
You can feel the rhythm everywhere
You can feel the rhythm
You can feel the rhythm
You can feel the rhythm in the air
