

Funeral Dress, Party Political Bullshit

PARTY POLITICAL BULLSHIT

No, there's nothing wrong with me
You try to draw the line as to how it must be
You can't stand it when you lose it all
Locking us up for your own mind control

Is there something in your brain
You change your mind again and again
You're using people for personal fun
Looking for someone's life to ruin

Party Political Bullshit, Bullshit!

Left wing, right wing on the radio
Left wing, right wing go, go, go
You're telling us that you're the best
But you're no better than all the rest

For years and years you've been telling us lies
But we never realized
Political Bullshit on your screen
Political Bullshit in the magazines

Party Political Bullshit, Bullshit!
