

Funeral For A Friend, Constant Resurrections

Closing folding like a star
Bring you back to see the lights
Bluest water falling down on your skin
On your skin

Keep you eyes locked away
In some lonely place
Don't stop, don't stop
When the music's over

Crosses made to bare the weight
You never bothered to explain
Questions swim around your head

Keep you eyes locked away
In some lonely place
Don't stop don't stop
When the music's over now

Closing folding like a star
Brings you back to see the lights
Bluest water falling down
On your skin, on your skin

Keep your eyes locked away
In some lonely place
Don't stop don't stop
When the music's over
Now It's over now
