

# Funeral For A Friend, Hospitality

Forget the letters just sleep sound tonight  
Pull back the covers without a fight  
But as we dance by emergency light  
I fail to swallow my tongue  
And I'm still here bleeding

So pull this switch and see my body twitch  
Oh, as we dance on this memory  
A light left blinking on it's own  
And my blood is flowing  
Down through this machine  
In hope and desire in hope I expire

[Chorus]  
Turn off this machine  
Cause this is the only thing that's keeping me alive  
Turn off this machine  
Cause this is the only thing that's keeping me alive

So pull this switch and see my body twitch  
As we dance on this memory  
Despair has devoured me whole  
A seed wont grow from this soul  
This pill wont cure my disease  
Can't you kill this beating heart

[Chorus]

Please nurse my batteries are running low  
Please nurse oh I think I'm running low  
Left here swallowed by this fear  
That you will always keep me here  
To close your eyes and pray for this to go away

Cause I'm not angry, tired or sore  
More of a man than I was before  
Is this the cause I'm looking for?

I plead forgive me  
Cause I'm no martyr  
Is this the cause that I'm looking for?  
[x2]

Cause I'm not angry, tired or sore  
More of a man than I was before  
Is this the cause that I'm looking for?  
[x2]

I plead forgive me  
Cause I'm no martyr  
You're not the cause that I'm looking for  
[x3]
