

Funeral For A Friend, You Can't See The Forest I

Give me something to believe in
Something that is real
A moment of reflection
What should I believe?

I've lost my innocence
If you see it around please tell it to call

(I can't stomach, my own stomach)

It can't tell me truths I need
When what I feel and what I see isn't even real

(What should I believe?)

Give me something to believe in
Something that is real
A moment of reflection
What should I believe?

Television tells me one thing
Brain tells me something else

(Bullshit never had any intelligence)

War's a terror that we can do without
Small town thinkers will always wear you down

(Just don't look for the hidden meanings)

Give me something to believe in
Something that is real
A moment of reflection
What should I believe?

Start with a voice, with some heart
(Something to believe)
End with a song in the light
(Something to believe)

Give me something to believe in
Give me something that is real
