(feat. Nature)

Turn your Radios Up, Turn Your Radios Up  
This that one right here I was telling yall niggas about  
That Nature shit  
(Queens Bridge)  
That Flex shit  
(We gonna beat yall in yall fucking heads)  
That direct shit

[verse 1]

A yo, a yo, a yo, a yo,  
I rock a short sleeve shirts and long sleeve shirts  
Your freestyles hot though you songs need work.  
Ya shit stay in the hood while my songs leave earth  
Every 16 I drop a concrete verse.  
Smack is just like a brick to a skull more slicker than dull  
Queens bridge nigga hit you for sure.  
Change the locks on your door niggas still get through  
It ain't a muthafucking thing I ain't willing to do (home boy)  
It ain't no killer in you ya hand cuffed  
F there (???) don't make me tear that ass up  
We could do it all day until we winded or injured  
Sit back and have a few drinks and maybe  
She pushed the issue I push you deep in grave  
Wilder than a Puerto Rican parade  
Keep the thing wit me all the time even when I'm going to court  
I'm prepared I don't know what you thought  
Yall don't hear me though

[chorus x1]

Never been afraid, nigga never once told  
Catch me in the projects in you want cold  
Catch me in the mic room if you want hits so what you want bitch I know you want this

[verse2]

A yo A yo A yo  
I know the roaches get big, the showers stay cold  
The clinic stay packed, the power stay sold  
Niggas showing off no matter how much they sold  
Fuck the cops, they fowler than us and they know  
They just pick a nigga, cuff a nigga  
Run em in do the same to another nigga  
Once again it's a I S bill, we need Cockrine fierce(???)  
Yo we gotta do something Cause they not gonna fear us.  
Fuck that, my man Jay used to play for the Dogers  
Hurt his hand string now he watches  
Got hoes topless and other hoes totally nude  
But he keep them to his self and me supposed to be schooled  
Type of nigga that I'll show me the wolves and try to pet them  
Getting to hot I perspire venom I put the fire in them  
Make it so they never cool off  
And when the snow clears tell them who lost  
They don't hear me though

[chorus x1]

I know you want this  
I know you want this  
You know you need this  
What, Wild gremlins, 2000  
Funk Flex, Queens Bridge  
Nature, Big Joey  
Yall niggas Know
