

Further Seems Forever, Already Gone

Time takes ahold
I know your waiting
But now your fading from me

Hope against hope
I heard you calling out
But now your falling out of reach

Come back alright
Come back alright
Come back, i can't let you go

I want you to know
You were already
Already gone aren't you?
Already gone aren't you?
Already, can't let you go

Already gone aren't you?
Already gone aren't you?
Already, can't let you go

Hope against hope
I know your waiting
But now your fading from me

Time takes ahold
I hear you calling out
But now your falling out of reach

Come back alright (alright)
Come back alright (alright)
Come back, i can't let you go

I want you to know
You were already
Already gone aren't you?
Already gone aren't you?
Already, can't let you go

Already gone aren't you?
Already gone aren't you?
Already, can't let you go

Come back alright (alright)
Come back alright (alright)
Come back, i can't let you go

Come back alright (alright)
Come back alright (alright)
Come back, i can't let you go

Already gone aren't you? (come back alright)
Already gone aren't you? (come back alright)
Already, can't let you go
