

# Fury In The Slaughterhouse, Hold On

I heard you say  
Hold on to your dreams  
There is a way  
That you don't see now  
Hold on to your dreams

Strip off your chains  
Hold on to your dreams  
It drives you insane  
If you don't try to  
Hold on to your dreams

Maybe it's monday and sister sun has her day off  
Don't worry cause she always will return  
And on sunday you will start to love  
Thinking of you  
Before you knew  
That everything you really need is already in you  
In you

Message received  
Hold on to your dreams  
And I have retrieved  
What I've lost long ago  
Hold on to your dreams

Maybe it's monday and sister sun has her day off  
I won't worry cause she always will return  
And on sunday I will start to love  
Cause now I can see  
Thinking of me  
That everything I really need is already in me

Maybe it's monday and sister sun has her day off  
I won't worry cause she always will return  
And on sunday I will start to love  
Cause now I can see  
Thinking of me  
That everything I really need is already in me

Is already in me  
Is already in me  
Is already in me  
Is already in me  
Is already in me  
Is already in me  
Everything that I need  
Is already in me
