

Fury In The Slaughterhouse, Kiss The Judas

she took you up to the seventh cloud
you had time to fall
is it that what you've been dreaming of
a promise big as the universe
and all the best for free
she ripped you off just when you fell in love

I know how it feels
I know how it hurts
it's the disappointment
that makes you feel so sad
I know you can top it
I know that you will
a smile in your face
one last embrace
to kiss the judas
to kiss the judas

mom is dead and dad's in buffalo
a long way to go
you paid the ticket but she does not come back
enjoy a night under candlelight
if you pay the cheque
her lips so red
and the future looks so black
