

# Fury In The Slaughterhouse, Kiss The Judas

she took you up to the seventh cloud  
you had time to fall  
is it that what you've been dreaming of  
a promise big as the universe  
and all the best for free  
she ripped you off just when you fell in love

I know how it feels  
I know how it hurts  
it's the disappointment  
that makes you feel so sad  
I know you can top it  
I know that you will  
a smile in your face  
one last embrace  
to kiss the judas  
to kiss the judas

mom is dead and dad's in buffalo  
a long way to go  
you paid the ticket but she does not come back  
enjoy a night under candlelight  
if you pay the cheque  
her lips so red  
and the future looks so black
