

Fury In The Slaughterhouse, Money Rules

What opens doors for you in the restaurants
What makes you realize your dreams
What let's you buy cars and cars one for every day
Just what you really need you can't buy

What makes the movie beauties smile at you
What makes your bogies shine like gold
What makes your doctor be your best friend
When you visit him
What makes the bank-clerks smile and sing
And they sing:

Money rules let's buy the world
Money rules let's rule the world
Money rules forget the world
Money rules let's crack the world
