

Future, Juice WRLD, Realer N Realer

i like to do what i wanna do
i like to play with these bands
I got the money and fame now
my family don't understand,

shit getting realer and realer
came up on a couple of million
I invest that in some buildings
look at my money, it tripled
shit getting realer and release
I lost my bro to the system
I lost my bro to a pistol
they tried to make me white him
I can't go for a that, no, no!
I stayed with killers every day
keep a 40, it's hungry
I turn your block to a buffet
I spend a lot!
Balenciaga jacket, Dior shades
I got a lean stain on it
I;ma give it to my maid

Uh, people love to talk about the money that they make
Nobody wanna talk about the money that they save
Who am I to talk about it? I blow money every day
'Cause I know when you die, you can't take the shit to your grave
Gucci and Louis shoes everywhere
I don't got no closet space
Versace drawers
my underwear cost what you make in a week
big shit, expensive
shit, all that shit
12 gauge, hit him
he do backflips
40 hit him and he MJ
big shit, expensive
shit, all that shit
only wanna fuck one time
baby, I am on the fall back shit
matter fact
you wanna fuck her
but you on the call black list
but if I hit it already
chances are I ain't finna call back, bitch

shit getting realer and realer
came up on a couple of million
I invest that in some buildings
look at my money, it tripled
shit getting realer and release
I lost my bro to the system
I lost my bro to a pistol
they tried to make me white him
I can't go for a that, no, no!
