

Future Leaders Of The World, House Of Chains

I'm so stripped down and naked
Feed me with change
Love me numb
So I can heal your pain
Make me wake up early
I'll drive home so far away
Skip school and sleep in my car
Turn on the head and melt the snow away

Is there still time for love
Love.
I'll forgive and forget
I won't regret a thing
But my pride and anger
It's a danger to myself

Now I'm looking out the front door window
To my teen hood house of chains
Seems like everyone's pretending to know the key
To something for somewhere
They've never been
In this road never ending
I'm ending this with you
Let's go there
Still time for me and you...

Is there still time for love
Love.
I'll forgive and forget
I won't regret a thing
But my pride and anger
It's a danger to myself

Mom's in the hospital
She's sick and undernourished
But anything is possible
She says violets always flourish
Fathers so afraid
Of the child inside he's lost
So how much will he pay
For all the pain he caused
I saw him smiling, laughing
Betrayed and so lost but I found, let's celebrate it
No matter what it costs

Is there still time for love
Love.
I'll forgive and forget
I won't regret a thing
But my pride and anger
It's a danger to myself

We don't have to wait
Now's never too late
Now is forever
And we are always free

We don't have to wait
Now's never too late
Now is forever
And we are always free
