

Future, Motion Picture

Motion picture, we gon make a motion picture
Take it off, take it off, take it all off
Take it off, take it off, take it all off

I wanna see you take it all off for me
I can't help but to stare, the way you move your body
And we gon hit the club and we gon make a movie
Then after make a motion picture, we gon make a motion picture
Don't worry 'bout the rumors girl its not what you think
Wanna turn you to a star in this motion pic with me
We gon start off in the club and have some drinks and when we leave
We gon make a motion picture, we gon make a motion picture

We gon hit the club and we gon go through VIP
We gon drink Rose' all night and sip on bubbly
We gon toast it up and roll it up, just you and me
We gon be the best of friends, don't care 'bout nobody
Whenever we hit the scene we always step out fresh and clean
No matter who in the club, its all bout you and me
We cherish every moment that we spend in this movie
Ima cherish every moment that I spend in this movie
Yeah, yeah

The way you move your body
We gon make a motion picture after this party
We gon start out own movie, don't invite nobody
Adn for this next scene, this all I wanna see

We wasted in the club, we done got pass tipsy
Just me and you together, I swear I'm living out a dream
We like your favorite song when it come on, try my best to make you scream
The way you move your body, girl I want you on my team
I like the way you make me feel when we step out on the scene
You make me feel like nothing else don't matter, you a queen
It's time to make a motion picture, Ima be your king
And how did I get off, Ima turn you to a fiend
Yeah, yeah

The way you move your body
You can make a married man leave his wifey
We had to make a motion picture after that party
Girl on this next scence, this all I wanna see

Don't you listen to the rumors
They gon hurt you like a tumor
In a room full of crowded people
Girl you is all I see

I wanna see you take it off, take it off, take it all off
We can go to the club, have a ball off
I wanna see you take it off, take it off, take it all off
Take it off, take it off
